

Cardinal Health Issues Voluntary Nationwide Recall of Certain Leader™ Brand Eye Drops Supplied by Velocity Due to Potential Risk of Eye Infections

Date: 11/01/2023

At Magellan Rx Management, we want to help you receive the best possible care. Visit our drug recall site for details: <https://www1.magellanrx.com/drug-recalls/>.

About this recall:

Cardinal Health is initiating a voluntary recall for *all lots* of the following ophthalmic products supplied by Velocity to the consumer level: Eye Irritation Relief, Dry Eye Relief, and Lubricant Eye Drops (NDCs: 70000-0087-01, 70000-0089-01, 70000-0090-01, 70000-0090-02, 70000-0088-01, 70000-0587-01). The recall is due to insanitary conditions in the manufacturing facility and positive bacterial test results from sampling of drug production areas.

These products are available over the counter (OTC) for temporary relief of burning and irritation due to dryness of the eye and for use as a protectant against further irritation. The eye drops also can relieve redness of the eye due to minor eye irritations.

What this means to you:

For those patients who use these products, there is a risk for eye infections that could result in partial vision loss or blindness. These products should be sterile. Eye drops have a higher risk as applying to the eyes bypasses some of the body's natural defenses.

Consumers should stop using the recalled eye drop products and may return any of the above listed products to the place of purchase. Consumers with questions regarding this recall can contact Sedgwick by phone at 1-855-215-4940 (8:00 am to 5:00 pm EST Monday through Friday) or by email at Cardinalhealth7720@sedgwick.com. Consumers who have signs or symptoms of an eye infection after using these products should talk to their healthcare provider or seek medical care immediately.

Adverse reactions or quality problems experienced with the use of this product may be reported to the FDA's MedWatch Adverse Event Reporting program either online, by regular mail, or by fax.

- Complete and submit the report [Online](#).
- Regular Mail or Fax: [Download form](#) or call 1-800-332-1088 to request a reporting form, then complete and return to the address on the pre-addressed form, or submit by fax to 1-800-FDA-0178.

This recall is being conducted with the knowledge of the United States (US) Food and Drug Administration.

For more information regarding this FDA Recall Notification, please refer to the FDA website:
