Submissions

Bleed:

- Allow for .125" (1/8") head, foot and face bleed.
- Supply crop marks for trim, but do not include an outline of the trim.
- All crop marks must fall fully outside the bleed area.

Color:

- Files must be in CMYK mode.
- All spot colors and RGB images must be converted to 4-color process before files are submitted for publications.
- All total area ink coverage in ad should not exceed 280%.
- For areas with black text over white background, do not use rich black.

File Format:

We use a PDF-only workflow system. All advertisement files must be submitted as PDFs and formatted as specified. We cannot accept EPS files or native layout files. Macintosh or PC accepted.
